Some Timely Advice. Let us give the readers of the INDE-PENDENT a little timely advice. Hot weather is coming and with it colic, cholera Championship.

A Sun correspondent from Belfast, N Y, of the 27th says: If Directions himself were no bigger and brawnier than the old sculptors made him. Sullivan of today Could the sulpton by Sullivan of today Could the sulpton pick him up and break him in two across his knee like a stick.

two places, where the shoes have chafed the skin. The ankles are gracefully built and solid looking, without any clumsiness. The feet work freely upon them, and the tendons at the back stand out strong and big. The shins are rough and hairy and marked with some scars, where they have been injured in previous fights.

Above the knees the limbs broaden out rapidly, and the upper parts of the thighs are big and sinewy, as belits the giant to whom they belong. The skin is clear and rosy, the flesh solid as iron to the touch, and the movement of the muscles with each step is as firm and steady as the motion of a piece of machinery.

When she became Miss, she clung to Castoria, When she bad Children, she gave them Castoria.

An eminent physician says: A healthy liver secretes from two to three pounds of bile every twenty-four hours and disposes of this secretion where it will do the most good. Now if the liver is out of order, the whole system is in trouble, the spirits are depressed, the mind is not clear, and a person whose liver is not performing its duty is very soon unfitted for regular business.
